Project Value	Various
Services Provided	Project Management
Project Size	Various
Architect	
Contractors	

Building on the success already established with Wolverhampton & Dudley breweries, Rider Levett Bucknall was secured the fit out of a number of new sophisticated “Pitcher and Piano” bars nationwide.

The re-vamped Pitcher & Piano bars are the latest and chic, city style living bars from Wolverhampton & Dudley breweries. The fusion of delicious food, sumptuous cocktails and lounge, chill-out tunes combined with their style and design finesse make these bars the perfect all round venue for an unpretentious and upmarket crowd.

Following on from the successful roll out of public houses for Wolverhampton and Dudley breweries, Rider Levett Bucknall Project Managed the fit out of these chilled out bars.

On the 30 June, the latest Pitcher and Piano was completed in Southampton. Located on the harbour and overlooking the trendy yacht filled marina, it was completed to budget and on time for a cool summer opening.

With a new bar in Brighton planned for the sea front and numerous other exclusive locations in the pipeline, the future of the Pitcher and Piano ship with Rider Levett Bucknall at the helm is looking bright!
