Overview

Redevelopment of the stadium that is home to the Newcastle Knights (National Rugby League) and Newcastle United Jets (Soccer A-League). The project has been undertaken through ten head contract packages, including the new eastern grandstand and the refurbished western grandstand, in order to coordinate with sporting seasons and to fast-track the project within tight time constraints and budget limitations. The redeveloped stadium will provide 12,122 seats in the new eastern grandstand, for a total stadium capacity of 25,794.
