The International Convention Centre will provide a world class facility for conventions and exhibitions. It comprises 500,000 sq ft highest quality facility in perfect acoustic and comfort conditions.

The centre provides total flexibility and includes 16 halls, which cater for international events and includes the facility to provide high quality premises for local conferences. Since completion the ICC has hosted the G8 Summit of World Leaders and the International Olympics Committee meetings in total security.

The ICC contains 2,200-seat symphony hall, home of the City of Birmingham Symphony Orchestra, which is now rated as the finest acoustic auditorium in the world.
