

## Project Profile

CSIRO Energy Technology Centre | Newcastle, NSW

Client	CSIRO Corporate Property
Client Sector	Research
Project Cost	\$35 Million
Services Provided	Cost Planning, Post Contract Administration
Project Size	12,000 m2
Architect	Cox Richardson
Head Contractors	John Holland

### Overview

Project comprises three main buildings – Process Bays, Offices and Laboratories interconnected with an access spine. The facility showcases alternative energy sources, including photo voltaic cells and wind turbines, as well as passive energy conservation through sun shading and natural ventilation.
