Client	Kent Moving & Storage
Client Sector	Industrial
Project Cost	\$8 Million
Services Provided	Estimates and Post Contract Services
Project Size	10,000 m <sup>2</sup>
Architect	N/A
Head Contractors	Wilkore Pty Ltd

### Overview

This project comprises a two storey office, warehouse and high bay container store, with a combined total gross floor area of 10,000m<sup>2</sup>. Construction of this project involves predominantly structural steel and precast concrete elements.

The warehouse incorporates both self storage and general small goods storage. The container store has been constructed with open plan design and maximum ridge height of 20m. Provision has been made to allow for the self operating crane allowing automated movement of containers up to 40ft (client provided).
