

Project Profile

Birkenhead Park Restoration | Birkenhead

Client	Heritage Lottery Fund
Client Sector	Grade 1 Parkland Restoration
Project Value	£10m
Services Provided	Professional Advisory Project Monitor
Project Size	
Architect	
Contractors	

Rider Levett Bucknall has been appointed to Heritage Lottery Fund's (HLF's) Register of Professional Advisors Framework since 1998. We have worked on over 100 projects to date including Birkenhead Park. The project encompasses the redevelopment of the only Grade 1 Listed Parkland in the United Kingdom, including the restoration of the iconic Grand Entrance Lodge, Lakes, Cricket Pavilions, Landscape and Bridges.

Birkenhead Park is one of the first Public Parks in the country designed by Paxton whose design influenced that of Central Park in New York. The Heritage Lottery Fund appointed Rider Levett Bucknall to carry out professional advisory role through to completion of the development in 2008. Our continuing role is to advise the Heritage Lottery Fund in an 'eyes and ears capacity' on all aspects of the development including:

- Programme Management
- Procurement Management
- Design Costings
- Legal Documentation
- Co-Funding Arrangements
- Staffing Structure
- Business Case
