### Hampden Gurney School | Royal Holloway

<b>Client</b>	Jarvis Projects
<b>Client Sector</b>	Education
<b>Project Value</b>	School £6m   Residential £19m
<b>Services Provided</b>	Project Management   Quantity Surveying
<b>Project Size</b>	
<b>Architect</b>	
<b>Contractors</b>	

**New build Junior school for London Borough of Westminster for use by Hampden Gurney Junior School, procured under PFI. Rider Levett Bucknall provided Technical Advisor services to the funding bank (Barclays) and Employers Agent and Quantity Surveying services to the SPV (Jarvis Projects).**

The School Authorities were particularly demanding in their requirements necessitating a high degree of design monitoring and feedback. Unusually for a Junior School this school was created vertically, but has retained a high level of accessibility for both students and teachers. It was nominated for the Stirling prize for its innovative build style and compliance with the latest key drivers in Education.

#### Client Benefits

- Independent contract administration, quality and cost control
- Impartial advice and assistance in problem resolution
- Assistance in meeting particular demands raised by School
