<b>Contractors</b>	

**CAFCASS (The Children and Family Courts Advisory and Support Service) a Government agency liaising with families and the courts has reappointed Rider Levett Bucknall Building Surveyors as Property Advisors for a further two years.**

The Building Surveying Team in Birmingham has been running with this framework for two years to date and have entered into a strategic partnership with an estates surveying practice, Fairhurst Estates of Stockport, in order to offer a complete estates and property management service.

This partnership has worked particularly well and our performance to date has been recognised by CAFCASS in the form of the existing contract being extended until March 2007. Our service involves estates packages for three regional areas-the West Midlands, the East Midlands and East of England.
